The SPE Northern West Virginia Section is pleased to announce the 2020 SPE Eastern Regional Meeting will be held 16-18 September at the Nemacolin Woodlands Resort in Nemacolin, PA. As such, papers on technology in the following areas are being sought; case studies are particularly well received:

**Drilling**
Wellbore Design, Drill Bits, Drilling Operations, Drilling Fluids and Materials, Casing and Cementing  

**Completions**
Completion Selection and Design, Hydraulic Fracturing, Completions Evaluation, Recompletion, Fracture Diagnostics including Microseismic, Fiber Optics, Tracers, and Fracture Mapping

**Production, Facilities and Operations**
Artificial Lift Systems, Design and Optimization, Multiphase Flow in Wells, Production Monitoring and Control, Facility Design and Optimization

**Reservoir Description and Dynamics**
Management of Challenging Reservoirs, Reserves Evaluations, Reservoir Geology, Geophysics, and Geomechanics

**Digital Technology and IoT**
Digital Platforms, Data Collection and Analysis, Wellsite Telemetry and IoT, Machine Learning and AI Systems Implementation

**Health, Safety and Environmental**
Environment, Safety, Sustainability/Social Responsibility

The technical program is designed to provide a forum for the exchange of ideas with a special focus on unconventional reservoirs, particularly the Marcellus and Utica shales. The Technical Program Committee encourages you to help shape the technical program by submitting paper proposals for publication and subsequent presentation at this fall’s meeting.

Abstracts will be accepted online through 16 March 2020; authors will be notified of acceptance in mid-April. For more information, or to submit an abstract, please visit our website at [www.speeasternregional.org](http://www.speeasternregional.org).
